

OMKAR JAYPAL AWAZE

Frontend Developer | Prompt Engineer

omkarawaze1915@gmail.com | +91 8432065361 | Nagpur, Maharashtra | linkedin.com/in/omkar-awaze-6322103b1

OBJECTIVE

Motivated first-year B.Tech Computer Technology student with hands-on experience in Python development, hackathon-driven project building, and AI-assisted coding. Seeking an entry-level opportunity as a Frontend Developer / Full-Stack Developer / Prompt Engineer to apply strong problem-solving skills and a fast-growing technical skill set.

EDUCATION

Priyadarshini College of Engineering, Higna

- Semester 1 SGPA: 8.18 | Semester 2 SGPA: 8.0 | CGPA: 8.09

Higher Secondary (12th)

- Percentage: 79.33%

Secondary School (10th)

- Percentage: 83.80%

EXPERIENCE

Python Developer Intern — WideSoftech

- Worked as a Python Developer intern, gaining practical exposure to real-world software development workflows and coding practices.
- Applied Python fundamentals to build and test small-scale programs under mentorship.

PROJECTS

CyberShield — AI-Powered Cyber Crime Reporting & Awareness Platform

24-Hour WideSoftech Hackathon

- Built an AI-powered platform with a scam/phishing risk detector, a smart complaint-filing module, and an awareness dashboard of cyber crime trends and safety tips.
- Developed the frontend with HTML, CSS, and JavaScript and the backend with Python (Flask), integrated via a REST API; collaborated in a team to deliver a functional prototype in 24 hours.

Government Scheme Transparency Tracker

32-Hour National Level Hackathon, St. Vincent Pallotti College of Engineering & Technology

- Built a platform to track government scheme budgets and completion status, with a citizen-facing feature to flag fraud or misinformation, promoting transparency and accountability.
- Collaborated in a team at a national-level hackathon to design and deliver a functional prototype within 32 hours.

TrustTrace — Pharmaceutical Supply Chain Traceability & Verification

- Built a blockchain-enabled platform to track medicine authenticity and supply-chain movement using digital IDs, role-based access, and stock tracking.
- Developed with React, Node.js, PostgreSQL, and blockchain as part of Team TechNova.

TECHNICAL SKILLS

- Programming Languages: C, Python (basics)
- Web Technologies: HTML, CSS (basics)
- Other: Cybersecurity fundamentals, AI-assisted development / Prompt Engineering (Claude AI)
- Practical Experience: Hackathon project development, rapid prototyping, team collaboration

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco Networking Academy
- Certificate of Completion — Python Internship, WideSoftech
- Certificate of Excellence — "Local Code to Live URL" Workshop, GeeksforGeeks KDK College of Engineering x AWS User Group Nagpur
- Hackathon Participation Certificate — WideSoftech Hackathon
- Hackathon Participation Certificate — National Level Hackathon, St. Vincent Pallotti College of Engineering & Technology

ACHIEVEMENTS

- Participated in 2 hackathons, building and presenting 2 functional web-based projects.
- Selected to compete at a National Level Hackathon hosted by St. Vincent Pallotti College of Engineering & Technology.
